Meeting at REDACTED

Present: Ian Whitworth
REDACTED

Existing Patent Application

REDACTED

Spring Gluing Machine

Ian explained his idea for a novel design of spring gluing machine. We compared this with various prior art patents and agreed that it appeared to be novel. However, there does appear to be a danger of infringement of REDACTED. Agreed that I would obtain a copy of the EPO file on that patent. However, Ian wishes to proceed with a patent application for his idea even if the conclusion on infringement is negative.
